Rivermont[®]
ORCHIDS
SIGNAL MOUNTAIN, TENNESSEE

Here comes the...

CHATTANOOGA CHOO-CHOO

loaded from engine to caboose with Yellow, Bronze and Unusual orchid seedlings, at a special price. There are six crosses, four of which were recently offered for sale, with two new crosses added.

Since there is only a limited quantity, we will select the plants. These are offered at \$3.00 per plant and you may read the descriptions on the reverse side. Plants will be shipped with proper labeling for your identification. Whether you order one or fifty plants, we will individually select a good color range.

Our "Carload Lot" offering is a special for \$25.00, including eight of these plants (our selection) plus one thumb pot each of R-1700 and R-1706. See attached sheet for description.

YELLOWS, BRONZES AND UNUSUALS

- R-1045 (LC. CAPRICE X C. DOWIANA) X BLC. MORNING SUN
Prediction: Attractive pastels - pinks creams, salmons
for spring flowering.
3-1/2" - 5" Pots recently shifted, well established.
- R-1050 (C. BENDER X SELF)
Prediction: Clear yellows of 6-1/2" - 7-1/2" spread, with
full, ruffled rose lip for September-October flowering.
4" Pots recently shifted, well established.
- R-1055 (LC. MARTINETII X BLC. DAVID J. SMITH)
Prediction: Ivory to cream brasso flowers of 6-1/2" - 8"
spread, with large, ruffled rose lip, for April-June flowering.
4" - 4-1/2" Pots recently shifted, well established.
- R-1325 (LC. CORSAIR X BLC. CONSUL GREIG)
Prediction: Shades of canary to golden yellow for winter
flowering. Blooms should be 6-1/2" - 7" in spread, having
full, reddish-rose lip.
3-1/2" - 4-1/2" Pots - majority have been recently shifted,
well established.
- R-1484 (BLC. CONSUL GREIG X C. HENTSCHELII, Good Variety)
Prediction: Bronzes to deep plums should predominate, for
June-July flowering. The flowers should be of 6-1/2" - 7-1/2"
in spread.
4" Pots recently shifted - well established.
- R-1557 (BLC. WREN X SELF)
Prediction: Handsome fall flowers of attractive coloring,
6-1/2" - 7-1/2" in spread. Pictured on several of our bro-
chures, the Wren has petals and sepals of pinkish mauve,
outer edges shading to yellow ochre; the lip is of doge purple.
Fall flowering. 4" Pots recently shifted - well established.
